CONCLUSION:

HOW TO:

WASH HANDS

GOAL:

Do you know that untidy hands are among the biggest reasons for getting sick? It

means that to stay healthy, we must keep our hands clean. So today, I'll tell you how

to wash our hands properly.

RESOURCES: To wash our hands, we need:

water

soap

hand towel

METHOD:

1 First, wet your hand with tap water.

2 Next, put some soap on your palm and rub both palms gently together.

3 After this, rub the back of your hands.

4 later, rub in-between your fingers and around your thumbs.

5 Then, rub your wrists.

6 Last, wash hands with clean water and towel dry them.

CONCLUSION:

And there you are with your clean germs-free hands. Keep your hands always clean

and never let the germs get you by your hands!

PROCEDURE TEXT

Name :

Class :

Write a procedure text based on the pictures below!

Conclusion:

PROCEDURE: make a card

What You Need

Steps

1 First, take an A-4 size card sheet and fold it into half.

2 Next, draw something on the cover of the card.

3 Then, colour in it to make it more attractive.

4 Last, write a note inside and you're done.

Conclusion: Your card is ready. Put it in an envelope and give it to whom you made it for.
